Education

BFA — Printmaking

📍 Georgia Southern University
Statesboro Georgia

Studies Abroad Grad Classes

📍 University of Georgia
Cortona, Italy

Professional Summary

I am a hybrid web/graphic designer and front-end developer with 15+ years remote experience, well-versed in both creative work (Adobe Creative Suite, Figma) — and more technical work in HTML/CSS and frameworks such as Bootstrap and Tailwind.

Outside of work, my hobbies and interests include playing guitar and banjo, singing, background/commercial acting, nationwide hiking/camping/overlanding, golf, fitness, and DIY projects. I also travel frequently to visit my daughter in Texas, and family on the Georgia coast.

Employment

Web Designer — Front-End Developer (contractor)

🌐 TruChoiceFinancial.com 📍 Remote 🕒 Apr 2023 — Present

CSS / HTML / Bootstrap / Front-End Developer / Graphic Designer. Responsible for designing, coding, testing, and maintaining the public-facing website, as well as the logged in client portal. Also perform email design/code and marketing graphics.

Web Designer — Front-End Developer

🌐 [FlexJobs](#) / [BOLD](#) 📍 Remote 🕒 Jan 2014 — Present

For 10 years with FlexJobs, I have performed web design (Adobe CS, Figma, Sketch) and extensive front-end markup (HTML, CSS, Bootstrap) for the entire website, in an Agile dev environment (using Visual Studio, Jira, Rails, Github, Slack).

In this role I work closely with everyone from the CEO, to Project and Product managers, Dev Directors, and Back-End Engineers. I also perform device testing for responsiveness. FlexJobs was acquired by BOLD in early 2023.

Interactive Web Designer

🌐 [Definition6](#) 📍 Atlanta GA 🕒 Mar 2007 — Dec 2007

Took design comps, wireframes, charter documents, and UI layouts and translated into website builds, using semantic HTML and CSS. Performed graphic design work and web page/application design, as well as extensive cross-browser testing. Participated in site-planning and estimate meetings and interacted with various teams.

Web Designer — HTML/CSS Developer

🌐 Various Contract Roles 📍 Atlanta GA 🕒 Jun 2004 — Dec 2013

Worked on a variety of web/graphic design and development projects for numerous companies — including [AutoTrader.com](#), [VeriSign](#), [BellSouth](#), [Dodge Communications](#), [Jackson Healthcare](#), and [Xceleration](#). These contracts were worked via several IT placement firms — The Creative Group, Matrix Resources, etc.

Webmaster

🌐 Coweta County Schools 📍 Newnan GA 🕒 Apr 2003 — May 2004

Planned, designed, developed, and tested the main CCSS website. Performed all graphic design work, and built all database-driven web pages and applications.

Developed and managed style specifications for the CCSS website. Tested for cross-browser/OS compatibility and Section 508 standards compliance.

Responsible for the CCSS Employee Intranet, as well as management of 30 individual school websites maintained by school-based technology specialists. Served as the help desk web design resource for these specialists.
